How the Motoring Clause works

Motoring units at a maximum of 5 knots are 15 minutes long

Motoring units at a maximum of 7.5 knots are 10 minutes long

Each motoring unit at 5 knots will cost you an additional 15 minutes.

Each motoring unit at 7.5 knots will cost you an additional 22.5 minutes.

The motoring clause does not apply to races 2 & 3.

Broken Leg*The Broken Leg Clause applies to races 1 and 4; this enables boats to have a stop on the way up to pick up passengers etc. Basically the clock stops from when the boats anchor hits the bottom or when the boats crosses a Legends start line (i.e. Whitianga) and starts again when the Anchor is lifted or the boat re-crosses the same Legends start line.

I, _____ hereby declare that to the best of my knowledge the named vessel has completed the above races in accordance with the racing rules of sailing and all other rules the govern the Mount Maunganui Yacht Club's Legends Regatta Events.
